

PHOTO GALLERY and SOCIAL MEDIA POLICY

Student pictures will be set up through a professional photographer at least once a year. On occasions, we may film or take a picture of your child(ren) in a group setting, individually and/or with their art work during a special event or evaluation. The reproduction of the aforementioned video, photographs, or voice recordings, may be used, at the center’s discretion, for the purposes of education and/or promotion of the school, in advertising materials or posted to the aquarellekids.com website and/or on social media (including but not limited to Facebook, Twitter, Instagram, and so forth) for your enjoyment and for the enjoyment of those viewing the website and/or social media materials. Should this be a problem, you must notify the center’s management in writing to restrict photograph permissions of your child(ren).

I hereby acknowledge that, I have read and understood the above Photo Gallery Policy, and give my permission to Aquarelle Kids LLC for the use and reproduction of the video footage, photographs, or voice recordings of my child(ren) for the purposes of education and/or promotion of the school, in advertising materials or posted to the aquarellekids.com website and/or on social media (including but not limited to Facebook, Twitter, Instagram, and so forth) for the enjoyment of those viewing the website and/or social media materials.
